EXPERIENCE

Xequemate, Rio de Janeiro, RJ, Brazil

Senior Software Developer | Consultant
Dec 2022 – Present

Latest projects

Time Off Cloud (Employee Leave, and Vacation Tracking Start Up):

- Completely revamped the WebApp by building it from the ground up, utilizing Dockerized Laravel within an AWS environment.
- Developed a multi-tenant application featuring OAuth 2.0 integration (Google, Microsoft, & Apple), seamless connectivity with Postmark for emails, Vonage for SMS, and integration with Google and Outlook Calendars. Enhanced the frontend using Jetstream, complemented by SquidUI, a personal side project of mine.

Create Your Own Bank (Open Banking Financial Start Up):

- Lead both front-end and back-end teams in 3 challenging projects: API, Internet Banking WebApp and Internet Banking App.
- I helped them achieve their deadlines and developed an integration culture with weekly meetings. This gave them confidence and leverage their combined skills. Production times were improved in 10 to 20%.
- Improved overall code quality by 32%, implemented coding standards, and improved their deployment cycles in 15%.

SEBRAE/RJ, Rio de Janeiro, RJ, Brazil

Senior Software Developer | Consultant
Apr 2015 – Dec 2022

- I helped clients reach their full potential on the Internet by delivering and managing high-quality, secure, and fast websites and web apps.
- Delivered before deadline 95% of the time, and I never went over a budget.
- 100% client satisfaction with no breaches of contract.
- Carrying out subsidized technological consultancy – through entrepreneurship promotion programs. Helping dozens of companies improve technological processes and implement digital transformation programs.
- I was in first place twice and second once as the best consultant in the state, with an overall result of 85% approval rate in the projects I coordinated.

- American Visa B1/B2 (can stay in US up to 6 months at a time)
- Can be hired full time or as a contractor
- English – Full Professional Proficiency / Portuguese – Native

BIO

With over 20 years of experience in software development, I have had the opportunity to work with some of the most reputable organizations in the industry.

During my 14 years at TOTVS, a top 70th development company in the world and first in Brazil, I have honed my skills in coding, testing, design and deployment. My passion for technology has enabled me to stay up-to-date with the latest trends and constantly improve my knowledge.

At SEBRAE, a distinguished Brazilian private, non-profit social service entity, I had the opportunity to contribute to the growth of micro and small businesses by combining my expertise in coding and consulting. As part of my role, I provided subsidized technological consultancy, collaborating with entrepreneurship promotion programs to offer invaluable support to these organizations.

During my tenure, I had the pleasure of working with dozens of companies, helping them improve their technological processes and implement digital transformation programs. By leveraging my technical knowledge and business acumen, I helped these businesses become more competitive, efficient, and sustainable in the long run.

I possess a wide range of skills that I have acquired from working in small to medium teams, allowing me to take on various roles as required. Fully dedicated to my work and thrive in a fast-paced environment where I can constantly learn and evolve. I am always willing to take on new challenges and tasks that require me to push my limits.
